AmiEs-2024

Ambient Intelligence and Embedded Systems

International Symposium

11-14 September, 2024
Tallinn University of Technology (TalTech)
Tallinn, Estonia

TAL TECH

TOPICS OF INTEREST

The symposium will cover (but is not limited to) the following topics:

- Ambient Intelligence (AmI), Embedded Systems, The Internet of Things (IoT), Smart City Technologies, ICT for Smart Cities, Applications of Ambient Intelligence and Embedded Systems
- Artificial intelligence (AI):
  fundamentals and current/emerging applications and algorithms, Large Language Models (LLMs), Machine Learning (ML), Deep Learning, Data Science, Big Data (BD)
- Ubiquitous and Pervasive Computing:
  Mobile Devices and Computing, Wireless Applications, 5G/6G Connectivity, Sensor Networks (WSNs), RFID/NFC, Wearables, Cyber-Physical Systems/Computing, Mobile/Cyber Security, Blockchain
- Sensors, Actuators, AI/AmI Devices, robotics and smart manufacturing (e.g. IIoT)
- Software development:
  programming languages (C++, Java, Python, etc.), Apps (Android, iOS)
- Teaching and Learning related to AI, AmI, etc.:
  International Project Development, R&D Management and Education, Transnational Education (TNE)

COORDINATION
Helmut Dispert, Kiel University of Applied Sciences
Kalle Tammemäe, Tallinn University of Technology
Ghodrat Moghadampour, Vaasa University of Applied Sciences
